A KEEN EDGE

PRECISION SHARPENING AND KNIFE RENTAL SERVICE

Packaging Sharp Blades and Points for Posting
Safety First!

Please clean your blades before packing and take a photo for your records

To keep things safe for everyone, please follow these important steps:

- **Protect blade edges and points** Wrap each blade individually. Make sure it won't move, slip out or cut through the wrapping. You can:
  - Wrap each blade in bubble wrap
  - Tape the blade between two pieces of thick card
  - Use thick tape or a guard to cover blades
  - Always tape everything tightly so it stays in place
- **Bundle and pad well**
  - Bundle wrapped blades together in bubble wrap or padding so items don't rattle around
  - Use a sturdy cardboard box
  - Avoid padded envelopes as they puncture easily
  - Make sure nothing can puncture through
- **Seal and label clearly**
  - Tape all seams securely
  - **Include my Customer Request Form inside the parcel**
  - Affix my address label (below)to your package and write your name and address in the Sender section
- **Who Can Receive Sharpened Blades?**
  - Only someone over 18 will be able to receive and sign for the parcel
- **Important Notes**
  - Please don't send restricted items like flick or butterfly knives – I can't accept or return them
  - Please refer to the weapons section of the Royal Mail Prohibited and Restricted Items Guide for clarification
  - Carriers may refuse to carry any sharp object that is not safely packaged
  - I recommend using Royal Mail Tracked 24/48 or Parcelforce for peace of mind
  - Keep your proof of posting
